

# Stainless Steel Mopping Hardware

## Autoclavable Buckets, Carts, and Accessories

### Description

Contec offers a variety of mopping system buckets and carts made from 100% stainless steel for excellent durability and cleanliness. All components listed may be sterilized by autoclave or gamma irradiation.

### Features and Benefits

- Durable stainless steel components
- Autoclavable at 122° C for up to one hour
- Compatible with all common disinfectant solutions and most common solvents
- Highly polished by mechanical or galvanic means for excellent biologic control
- Electropolished components per ASTM B912

### Applicability

The information presented here is applicable to the part numbers shown below, as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.

See part numbers listed under "Technical Data"
