

# SATWipes® SAT-C1-1090 Wipe

Saturated nonwoven cellulose/polyester wipes in center-pull dispenser

## Description

The SATWipes C1 consists of a roll of (100) 6" x 9" saturated wipes that are dispensed through a convenient and reusable pop-up center-pull canister. The wipes consist of nonwoven cellulose/polyester fabric that is hydraulically entangled creating a soft, durable, and clean wipe that provides consistent solvent application and use. Increase safety and reduce up to 35% of solvent use while eliminating the need for solvent bottles and handling. The saturation of 10% alcohol and 90% deionized water provides a safe and mild cleaning solution.
