

QuickTask[™] 0600/0650 Mop Head

Microfiber Ribbed Face and Foam Core Mop Head

Description

The QuickTask range consists of a variety of flat mop heads that can be easily attached to a choice of flat mop head frame and handle assemblies. The flat mop heads are compatible with the QuickTask hinged mop frames 2749 (stainless steel) and 2740 (autoclavable polypropylene).

The TASK0600 is a flat, pad style mop cover designed for outstanding cleaning performance and exceptional durability. The unique microfiber and foam core construction ensures excellent floor contact, sorbency and superior surface cleaning. The microfiber face fabric is very sorbent, and the mop can be used for application of a wide range of solutions, and to mop-dry already wet surfaces.

Compatible with a wide range of chemicals and disinfectants, the TASK0600 is autoclavable and launderable. The TASK0650 is provided sterile by gamma irradiation at no less than 25 kGy per AAMI guidelines.
