

# Polyester Wiping Cover, Single-ply

Polyester fabric wiping cover for VertiKlean® and VertiKlean® MAX™ mop heads

## Description

These abrasion and chemical resistant wiping covers are made from the same filament polyester fabric as our cleanroom wipes and are specially sewn to reduce cover degradation and subsequent particle generation. The covers are designed and constructed to fit snugly over each size of the VertiKlean and VK MAX mop heads, and contain no elastic to degrade or contaminate. The clean and durable fabric covers provide protection for both the foam VertiKlean mop heads, and the environment being cleaned. Excellent for cleaning critical surfaces and environments. Available sterile per AAMI Guidelines.
