

VertiKlean[®] MAX[™] Sealed Edge Mop Head

VertiKlean MAX mop with sealed edges and microfiber face, **Medium**

Description

The VertiKlean MAX Sealed Edge mop head is used with VertiKlean hardware for wet cleaning ceilings, walls, and floors in sterile and non-sterile controlled environments. Like all VertiKlean MAX mops, VertiKlean MAX Sealed Edge is very lightweight and easy to maneuver on all surfaces.

Featuring a unique ribbed microfiber fabric laminated to a single layer of hydrophilic foam, the edges of the mop head are sealed to eliminate exposed foam. The result is a mop head that provides superior surface cleaning performance and excellent durability. The outstanding sorbent capacity of the hydrophilic foam holds disinfectant and other solutions without dripping, and delivers solution evenly to surfaces.

The foam mop head is backed by a semi-rigid thermoformed plate that easily snaps onto existing VertiKlean frames and provides uniform contact pressure on surfaces. Mop heads are available sterile per AAMI guidelines, and are compatible with a wide range of disinfectant and solvent solutions. Single use is recommended to avoid the risk of cross contamination between mopped surfaces.

Compatible with frame part numbers 2652A, 2652SS, and 2652K

Technical Data

Mop head component materials (cleaning surface first)	Knitted microfiber polyester fabric / 100ppi hydrophilic urethane foam / knitted polyester fabric / APET thermoform backplate
Construction	Multi-layer; flame bonded / inert hi-temp adhesive
Dry Mop Weight	0.152 lbs/mop (2.432 oz)
Chemical compatibility	Recommended for continuous use in most common disinfectant solutions, when mixed according to manufacturers' directions. Recommended limited use up to one hour in "bleach" solutions over 40,000ppm hypochlorite. Not compatible with acetone and other ketones.

Attribute; (units)	Value **	Test Method
Mop weight, dry; (g/mop)	63.5	CTM 004-03
Sorbency in water		
Dry capacity; (mL/mop)	362	CTM 004-03
Non-volatile residue, NVR		CTM 005-01
In deionized water; (g/mop)	0.001	
In isopropanol; (g/mop)	0.002	
Particles ≥ 0.5µm; (x10 ⁶ /mop)	7.9	CTM 006-01
Fibers > 100µm; (x10 ³ /mop)	0.12	CTM 006-01

**ND = None detected; levels are below detection limit of test equipment
