PREMIUM MICROFIBER GLOVE FOR ANY TYPE OF SURFACE

For those of you who love soft materials, pleasant to the touch, *Handy* will make an ideal household companion. Like a security blanket (you know you've still got one!), you'll want it to last and keep its shape, so DECITEX ensures that *Handy* can be washed 300 times!

Its classic silver grey won't reveal the impressive amount of dirt that *Handy* has removed from your surfaces. *Handy*, is simply your hand! It goes everywhere, into every nook and cranny, without letting go as you couldn't bear if *Handy* were to get lost behind a piece of furniture.

Handy can be used dry to attract all dust using its super power: electrostatic force. So dusting becomes child's play. But *Handy* can beat that: damp, it is transformed into a household magician using its two other powers: mechanic force for dirt removal and capillary force for absorption. Even if it ends up wet, your surfaces will be dry and impeccable, whether standard furniture, windows, mirrors or even stainless steel.

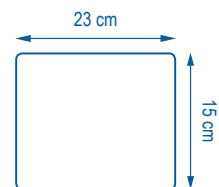

So you can treat your inner child to a *Handy*, DECITEX has also made it affordable to all, especially you. One last thing, *Handy* is smart, it is used stretched out (flat), placing maximum fibers in contact with the surface, unlike those cowardly cloths that spend their lives in a ball.
