APPLICATIONS

Bucket for roll cloths in TNT Mono-Roll. The cloths are soaked with cleaning/disinfecting solution directly into the bucket and then used individually by pulling them out of the central opening of the cover.

FEATURES

- Product partly made with PSV certified plastic components - Plastic Second Life: the first Italian and European brand of environmental product certification that guarantees and makes it easier to identify goods obtained using recycled plastics
- Made of high quality polypropylene copolymer: shock-proof, heavy duty and low-temperature resistant, light, non-toxic, completely recyclable
- Transparent plastic cover with hermetic closure to allow you to see the consumption level of the roll
- Bottom protection rim

MATERIAL

Bucket: polypropylene copolymer - PSV
Cover: linear polyethylene
