With anti-bacterial treatment, it removes up to 99,98% of bacteria and fungi - Cloth for any surface and for very dirty environments - Resistant, it removes and keeps dirt - Weight: 300 gr/Sq m

APPLICATIONS

Suitable in any surface and in any environment (hospitals, hotels, offices, schools, nursery schools, public facilities etc).
It can be used dry for dusting or damped with water to wipe and clean surfaces.
Used for very dirty environments.

FEATURES

- This microfiber has been treated with silver ions which guarantee a reduction of the most common bacteria up to 99,9% after the first 20 minutes
- Tested: the mop has undergone a laboratory test on samples of Staphylococcus Aureus, Escherichia Coli, Pseudomonas Aeruginosa, Klebsiella Pneumoniae and Salmonella
- Ecological: it removes up to 99,98% of bacteria and fungi saving chemical products
- Thanks to the microfiber action and its structure so close-knit and resistant, the very thin fibers can penetrate the microscopical pores of any surface collecting dirt with excellent results
- It removes oils and moisture too reducing the use of chemical
- It removes and holds the dirt leaving the surfaces clean, dry and bright
- Double-faced cloth which can be used on both sides
- Resistant to the frequent use and suitable for any surface

MATERIAL

Microfiber (80% polyester - 20% polyamide)

ABSORBENCY

4 times its weight

LIFE CICLE

Up to about 400 washings, if washing instructions and warnings are respected

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing
Always rinse after use
Do not use softner
Do not use chlorine or bleach
Use alkaline detergents with Ph<11
Wash with similar textiles

WASHING INSTRUCTIONS

N.B.: No need to wash at high temperature, as bacteria are completely killed after one hour thanks to the silver ion treatment
Washing temperature only with water: max 90°C (+/- 5°C)
Washing temperature with normal detergent for textiles: 55/60° C (always follow the chemical manufacturer's information)
Normal mechanic action
Normal rinse cycle
Normal tumble dry
Mechanical drying at low temperature
