

**3335PB50 STERILITY MAINTENANCE BAG, SELF SEAL,
25 X 37, 50/HEAT SEALED POLY BAG, 5 POLY BAGS/CASE
LINER**

Description:

GEPCO's Sterility Maintenance Bags are made of a transparent, strong, 3 mil thick medical grade polyolefin material. Sterility Maintenance Bags offer the convenience of self-seal. All covers have a starter slit to facilitate easy opening of the cover without disturbing or damaging the contents.

Specifications: (Reorder No. 3335PB50)

PHYSICAL PROPERTIES		
Material – 3 mil thick medical grade polyolefin material		
Gauge	3.0 mil 76 microns	
Basis Weight	43.2 lbs. / ream 70.3 gr. / sq. M	
Yield	10,000 sq. in. / lb. 14.22 sq. M / Kg	
Haze	70 %	
STRENGTH PROPERTIES – (MD signifies machine direction; CD signifies cross direction.)		
Tensile (MD CD)	3,500 2,000 lbs. / sq. in. 24.13 13.79 n / sq. mm	
Tensile Modulus (Youngs) (MD CD)	11,000 15,000 lbs. / sq. in. 75.84 103.40 n / sq. mm	
Elongation (MD CD)	300.0 700.0 %	
Elmendorf Tear (MD CD)	30 120 grams 0.29 1.23 n	
Spenser Impact	12,000 lbs. / sq. in. 82.73 n / sq. mm	
COF	0.5	

Packing: 250 bags per case. 50 bags are placed in a heat-sealed poly bag. 5 poly bags are placed in a poly liner shipping container.
